### **DETAILED ACTION**

Claims 36-50 are pending in the application.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 36-48, drawn to a process of preparing halogenated alkanes, classified in class 570.
- II. Claims 49-50, drawn to a process of separating 1,1,1,3,3-pentafluoropropane from 1-chloro-3,3,3-trifluoropropene, classified in class 203.

The inventions of Groups I and II are patentably distinct from each other because there is no patentable co-action between the two Groups of inventions. Prior art anticipating or rendering obvious the invention of Group I would not necessarily anticipate or render obvious the invention of Group II. Thus, an undue burden or search would be required to prosecute the inventions of both Groups I and II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

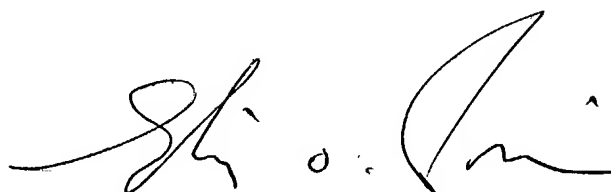

A telephone call was made to Robert C. Hyta on 11/15/04 to request an oral election to the above restriction requirement, but did not result in an election being made.
